Who is Australian Money Market?

Australian Money Market Pty Ltd (AMM) is a private company that was established in 2007 to run an online cash deposit broking business. Initially built to facilitate the trading of term deposits from one place, AMM has grown to now offer At Call, Managed Funds and Bonds from the marketplace.

AMM was the first to deliver such a unique service to the Australian marketplace and over the past 12 years we have placed over **184,000 deposits totalling \$31.5 billion!**

Thanks to our loyal and ever-increasing client base and exponential growth as the leading online term deposit and investment marketplace, our current funds under management are now over **\$5 billion across over 30,000 deposits.**

Australian Money Market Pty Ltd (AMM) are licenced as a corporate authorised representative (No. 338682) under DDH Graham Limited (AFSL No.226319), a funds management and administration organisation.

AMM Treats Security Very Seriously

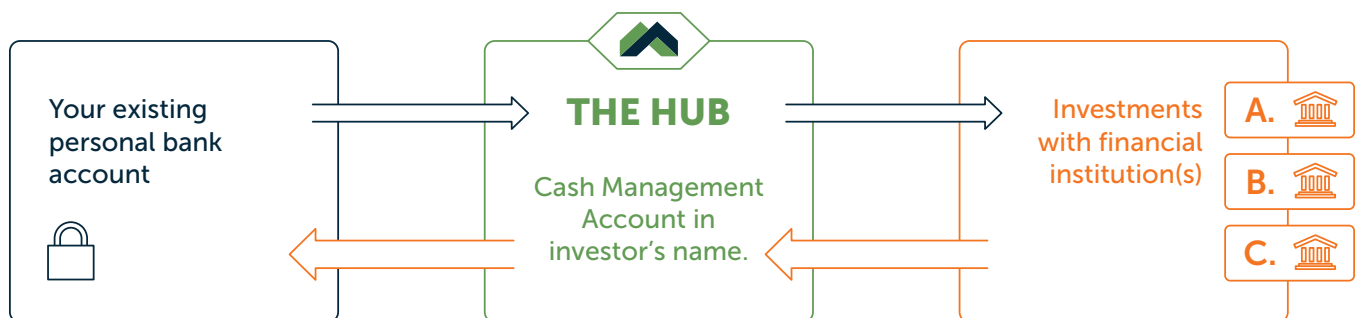

We have procedures and processes in place to make sure that the security of client funds are never compromised. Funds ALWAYS stay in the investors name and move directly from bank to bank. Ownership of the funds cannot be transferred to anyone else and no monies are held on trust.

Cash Management Account (CMA) Requirement

Each AMM Client Account requires a Cash Management Account (CMA) which acts as a "hub account". The CMA is in the client's name and funds move directly between this account and the chosen investment institution. AMM can set a CMA up on behalf of the investor if they don't have one from one of our preferred providers.
